

Champagner

Amazing shine in one pass. Ideal on soft to medium floor coverings. Pad with highly rubberized binder. Recommended for use on machines up to 3,000 rpm.

Janex High Speed Pads

Use

This pad is used to burnish/polish floor finish to a high gloss. Recommended for use on all finishes. Excellently suited for top dressing highly polished floors. Ideal for use on machines speeds up to 3000 rpm.

Description

The M40 Natural Medium Pad is made from 100% recycled polyester fibers with water-based resins in a non-woven structure. The pads can be used on both sides. Thickness 26 mm.

Directions for use

Before polishing, the floor should be dusted. Use the pad until the floor has a high gloss. Then wipe again with a damp cloth to remove the polishing dust.

Product care

The longevity of the pad can be extended by cleaning it with increased water pressure using a hose (spray nozzle). To loosen stubborn dirt, the pad can be soaked in detergent before washing.

Note: Due to the intrinsic properties of the material and variable conditions of use, there may be slight variations in the specifications and results. Please contact JPU with any questions or concerns.
