

M59 Apricot

The M59 Peach UHS pad is constructed of polyester fibers in a textured nonwoven fabrication. This pad has a special binder formulation that allows the pad to effectively remove black marks and restore gloss in one pass.

Janex High Speed Pads

Use

This pad is used to burnish/polish floor finish to a high gloss. Recommended for use on soft to hard finishes. This pad has a special binder formulation that allows the pad to effectively remove black marks and restore gloss in one pass. Ideal for use on machines speeds up to 3000 rpm.

Description

The M59 Peach UHS floor maintenance pad is constructed of polyester fibers in a textured non-woven fabrication.

Construction

The Remover Ultra High Speed Burnishing Pad is made of 100% recycled polyester fibers and water based resins. This pad has been designed for use on both sides.

Directions for Use

Dust mop floors prior to burnishing. Use pad until finish gives high gloss. Dust mop again to remove dust from burnishing.

Product Care

To prolong the life of this product it may be washed using a hose with a pressure spray nozzle to remove soil. Allow pad to dry completely before using again.

Note: Due to the intrinsic properties of the material and variable conditions of use, there may be slight variations in the specifications and results. Please contact JPU with any questions or concerns.
