

## M16 Beige

The abrasive effect of the beige pads is significantly reduced compared to the black pads, so that they can be safely used on PVC and synthetic resin floors as well as on wood, parquet and cork floors for maintenance cleaning. The suitability is here for wet and dry cleaning alike. However, it still applies here: Check for scratch resistance and switch to a softer pad on very sensitive floors.

## Normal Pads

### Use

This pad is designed for light duty cleaning and buffing. It will remove light scuff marks and dirt while producing a high gloss shine. For use with standard electric floor machines, orbital scrubbers and automatic scrubbers. Ideal for use on machines speeds up to 800 rpm.

### Construction

The M16 Beige pad is made of 100% recycled polyester fibers and water based resins. This pad has been designed for use on both sides.

### Directions for Use

Dust mop or sweep floors prior to cleaning or buffing. Damp mopping may be necessary if floors are heavily soiled. A spray cleaning solution may be use. Buff until glossy.

### Product Care

To prolong the life of this product it may be washed using a hose with a pressure spray nozzle to remove soil. To dissolve heavy soil or finish this pad may be soaked in detergent or diluted stripping solution prior to washing.

### Description

The M16 Beige pad is a floor maintenance pad used for light cleaning and buffing. It is constructed of polyester fibers in a dense textured, non-woven pattern bonded with a sturdy adhesive.

### Full Cycle® Product
