M32 Black Stripping

The hardest Janex Super Pads are best used for all <u>intense cleaning works such as the thorough removal</u> <u>of dirt layers on wooden floors</u>. The grinding particle concentration is high so that surface layers such as wax layers can be removed – examine softer floors for scratch resistance before use. Sensitive types of wood should be treated with softer pads.

Janex Super Pads

Use

Use with water based floor stripping solution to remove worn and soiled floor finishes or sealers. May also used to clean heavily soiled hard surface floors, such as concrete, when used with proper cleaning solutions. For use on standard electric floor machines or automatic scrubbers. Ideal for use on machines speeds up to 350 rpm.

Description

The Black Stripping pad is constructed of polyester fibers in an open texture non-woven fabrication. Abrasive particles are distributed throughout the pad and adhered to the non-woven construction with a sturdy adhesive. Thickness 24 mm.

Construction

The Black Stripping is constructed of polyester fibers along with synthetic adhesives that will not be notably affected by water or cleaners used in standard floor maintenance. The abrasives used in this product are synthetic. This pad has been designed for use on both sides

Directions for Use

Dust mop or sweep floors prior to stripping. Use pad until soil and finish are removed from floor. Pick up stripping or cleaning solution with a mop, wet vacuum or automatic scrubber. Rinse floor and let dry prior to re-coating or opening to traffic.

Product Care

To prolong the life of this product it may be washed using a hose with a pressure spray nozzle to remove soil. To dissolve heavy soil or finish this pad may be soaked in detergent or diluted stripping solution prior to washing.

Note: Due to the intrinsic properties of the material and variable conditions of use, there may be slight variations in the specifications and results. Please contact JPU with any questions or concerns.
